President Report

Thank you to all the Members who voted in the election for Governing Council. My congratulations to all those elected, I look forward to working with you for the benefit of our Association and our Members.

We welcomed our new Chief Executive, Marzel, to the team in August. Thank you to all the staff who have worked to provide services to our Members during our protracted search for a Chief Executive.

Our Dogs West Open Day and Perth Royal Show are two of our biggest opportunities to showcase the Association, our many disciplines, and our dogs, and to raise our profile as responsible dog breeders. Get involved - all volunteers welcomed for the Perth Royal Show and the Open Day!

Falling numbers at many of our events remain evident, despite the return of interstate and international judges.

Whilst some Members may have found other interests during the pandemic lockdowns, and the cold wet weather can be discouraging, it is probable that some declining numbers are as a result of the poor behaviour of a minority of Members towards other Members, Dogs West staff, volunteers, and visitors to our grounds.

Nobody has any particular entitlement when using our grounds or attending events; the grounds and facilities are there to be shared by all Members, and for visitors to feel welcome.

Bad behaviour is simply not acceptable. Be kind and be courteous - it costs nothing and gains much.

Ms Pamela Campbell, President

No Act of Kindness however small is ever wasted.

PRESS RELEASE

– ROTTWEILER SURVEY RESULTS

A Rottweiler Natural Bobtail survey was conducted by Dogs Australia last year to ascertain feedback from all owners of registered Rottweilers as Dogs Australia follows the Country of Origin breed standard and given that the gene involved is an incomplete dominant there is the possibility of bobtail parent/s producing long tail offspring. Only the long tail offspring are eligible to be placed on the Main Register.

The response received indicated support.

As this was an amendment to current regulations, the result of the survey was referred to the Dogs Australia Board of Directors for consideration at their June 2022 Special Board meeting where it was endorsed.

Consequently, the following new clause will be added to Regulations Part 6 – The Register & Registration which will be effective from 1 January 2023:

- 8.9.2 Effective 1 January 2023, any Rottweiler born a Natural Bobtail will be eligible to be registered on the Limited Register only and flagged NOT TO BE UPGRADED.

PRESS RELEASE

– SUSPENSION OF REGULATIONS

As a result of concerns received regarding the Afghan Hound survey, the Dogs Australia Board of Directors have resolved to immediately suspend Regulations Part 6 – The Register & Registration Clause 8.16 which reads:

- 8.16 Afghan Hound (Added 02/22 – 6.1, Effective 1 July 2022)

The Minimum Breeding Age for Afghan bitches is 24 months at the time of mating (unless a veterinary certificate is produced stating that for health reasons the bitch should be mated before 24 months).

Breeders of litters whelped on or after 1 June 2022 will be required to comply with the requirements as a prerequisite to registration of any litter on the ANKC Ltd Main Register.

Litters which do not meet the above requirements will only be able to be placed on the Limited Register and will be flagged not to be upgraded.

An investigation into the procedural process and the regulations will be carried out and a report submitted to the October 2022 Board meeting.

DOGS AUSTRALIA SURVEY

- ROTTWEILER OWNERS JUVENILE LARYNGEAL PARALYSIS POLYNEUROPATHY

In accordance with the June 2022 Special Board meeting minutes an online survey is now available from the link provided below where Dogs Australia is seeking feedback from owners of Rottweilers regarding the following proposal.

Proposal:

To be added to Regulation Part 6, 8.17. Effective from 1/1/23 ALL Rottweilers be tested for JUVENILE LARYNGEAL PARALYSIS POLYNEUROPATHY (JLPP) prior to being mated and only Clear to Clear or Clear to Carrier be permitted. The exception to this is Frozen Semen whereby a sample can be taken from left over semen when a bitch is inseminated and then sent off for testing; in these cases the bitch must be a Clear on the chance the sire may be a Carrier. Certificate to be provided by the Laboratory carrying out testing eg: Laboklin, OFA, Orivet. Samples must be taken by a Vet or a Certified Collector.

Rationale:

Currently this only applies to Members of State Rottweiler Clubs, but due to the horrific outcome for puppies where two carriers are still being

mated by non Club members we request **ALL** breeding pairs be tested. Over the past 6 years stats show an average of 19% of the Rottweiler population worldwide being tested are shown to be carriers. This is a recessive gene and can be controlled by selective breeding. Please read attached NRC(A) JLPP Scheme.

We refer to Dogs Australia Statement: **Dogs Australia registered breeders follow a strict code of ethics, conduct health checks and, for accountability, are supported by a database of inherited diseases - ORCHID.** We believe JLPP should be added.

The online survey can now be accessed from: <https://www.surveymonkey.com/r/Z9NFW3>

The link is also available from our website at: <https://dogsaustralia.org.au/members/health-wellbeing/rottweiler-juvenile-laryngeal-paralysis-polyneuropathy-jlpp-survey/>

Please note responses to the survey are required by COB 3 November 2022.

PARKING AT DOGS WEST VENUE

Lack of consideration by some Members in ignoring parking directions
has resulted in multiple complaints over recent months.

If you find a parking notice on your windscreen - you are one of the culprits.

Please display consideration for fellow Members and observe the
following directions.

- **Parking Bays** - Park **within** the white line marked parking bays.
Parking across bays is not acceptable at any time.
- **Cars with Trailers attached** - Where possible, these should be
parked in the double bays at the Warton Road end of the pavilion
or in the double bays between the main arena and the lower arena.

- **Cars only - DO NOT** park in the car and trailer bays - park cars in
marked single bays around the grounds - there is ample parking
available.

- **Double parking** - Is only permitted during unloading. Once
unloaded move your vehicle to a correct parking area.

- **Unloading Bays** - Unloading bays are provided for unloading **ONLY**.
Once unloaded move your vehicle to a correct parking bay. Do not
leave vehicles in unloading bays for any reason.

- **Hatch marked areas** - These are **NOT** parking areas and are
marked for safety reasons, including line of sight for drivers.

Eukanuba™

A HEAD START ON AN ACTIVE FUTURE

Fuel their growth and their play

Eukanuba™ puppy diets contain concentrated energy and optimized fat and carbohydrate levels to help fuel growth and play.

At weaning energy required for growth is at 50%, however when this growth plateaus energy required for growth drops down to 8-10%. Our goal with puppies is not to maximise their growth and weight gain but to ensure they grow at the right pace.

Different size puppies have different metabolic growth rates, for example, a smaller breed puppy has a quicker metabolic growth rate and so this must be represented in their diets. As fat supplies more energy per gram than protein and carbohydrate, Eukanuba™ puppy diets have a high calorie density and are a great source of:

- Essential fatty acids
- A concentrated form of energy
- Carrier for fat soluble vitamins

20% OFF ALL EUKANUBA™ PUPPY FOOD*
