

2020 National Agility Trial – Reschedule update

Dogswest and the 2020 Agility Nationals Working Party were recently placed in the unenviable position of postponing the National Agility Trial that was scheduled for May 2020.

It appears that the current Covid-19 crisis may be with us for some time, this coupled with the many months in WA that are too hot for daytime agility trials made the search for a new date difficult. With all of the variables in mind we applied for the same period in 2021, our application was approved and we are excited to advise that the Dogswest Agility Nationals will be conducted from Tuesday 25 May to Sunday 30 May 2021.

Our aim is to retain the same judging panel and schedule as previously advertised, we are currently working with our judging panel on confirming their availability and issuing them with new contracts. When our Judges are confirmed we will update the schedule and release it, in the meantime we will update our Facebook page and Website with Judges' information as we receive confirmation of their availability.

Entries will be via OARS, if you entered previously you will need to redo your entries as it is a new trial, entries from the postponed trial will not be carried over to the rescheduled trial. If you have already entered your dog's information it will still be in the system which will streamline the process, the only change that you will need to make is adding any new titles. We will let you know when OARS is open for entries, earlybird entries will close on Friday 29 January 2021 with all other entries closing on Tuesday 30 March 2021.

It's been a difficult time for small business owners recently and we ask that you continue to support our sponsors, we also hope that they remain with us as sponsors for the rescheduled event.

We are not sure if there will be any restrictions in force at this time next year but we will work with them if there are, our National may look slightly different as a result but we assure you that we are committed to bringing you an exciting, friendly and fun event.

The Nationals Working Party are excited to have locked in new dates, we have some work to do on a few things including logos and merchandise which we will bring to you shortly.

We hope that you and your families stay safe in these unusual times and we look forward to seeing you at the Nationals in May next year.
